Tornado Kills 12 In El Dorado, Kansas

57 Hurt, School, 150 Dwellings In Path Struck

Water, Telephone, Electric Lines Cut By Destructive Storm

EL DORADO, Kan. (AP) — A tornado turned its fury on a neighborhood of modest new homes late Tuesday, killing 12 persons and injuring 57.

The twister, described by a witness as resembling a big gray elephant with a long trunk, cut a swath 14 blocks long and a quarter of a mile wide along the southwest edge of the city. City Manager Stanley Dial said 150 houses and an elementary school were destroyed or damaged.

El Dorado (pop. 12,000) is 35 miles northeast of Wichita. Principal industries are two refineries, neither of which was damaged.

The tornado swept away four main electric power lines, plunging the city into darkness. Telephone lines were severed and the municipal water mains were broken in several places.

While doctors worked feverishly by the feeble light of candles and flashlights at El Dorado's only hospital, National Guard troops from nearby Augusta and El Dorado's own unit were called to help civilian officers patrol the streets.

Looters swarmed into the stricken area as soon as darkness fell. At least three persons were arrested for rifling the debris.

As the tornado passed on its way, a reporter said, "A heavy black cloud hung to the eastern horizon. Over the city there was a fleecy cloud, white and beautiful."

"It looked like a shroud." The tornado was the second disastrous storm of the month. A twister in northwest Wisconsin killed 28 persons and seriously injured 117 June 4.

It was 5:45 p. m. when the tornado hit El Dorado. Trooper Bob Lemon of the Kansas highway patrol, on duty seven miles south of the city, saw it first.

"I followed it to El Dorado as fast as I could drive," he said. "I warned the El Dorado police by radio that the storm was coming. I don't imagine I gave them a

Two Resignations Accepted

LISBON — The Lisbon Village School board Tuesday night hired Gary L. Pike, a son of Mr. and Mrs. C. B. Pike of 270 E. Pine St., as seventh grade teacher.

A 1951 graduate of Lisbon High School, he was graduated with a bachelor of science degree from Muskingum College this year.

A basketball and football letterman, he has a major in history and holds an Ohio secondary provisional certificate. He served two years in the armed forces.

His class will be in the Church of Christ Sunday School room. Seventh graders will be taught in makeshift quarters next term because of lack of space in the schools.

The board accepted the resignations of Aaron Needham, seventh grade teacher last year who will teach at Boardman this year, and bus driver Durrell McCammon, who will manage his father's garage business.

The board purchased \$1,490.80 worth of equipment, including chairs and desks, from the Link Equipment Co. of Cleveland. The equipment will be used next term for the outside classrooms and will be installed in new school rooms which will be constructed if a one-mill school levy passes at the November election.

The one-mill levy over a 25-year period would provide \$135,000 which would finance construction of six additional rooms at the Lincoln School building and other necessary improvements.

The board took out insurance

DeGaulle Raps French Military Aide in Algeria

Premier Tells Rebels To Quit Interfering In Government Plans

PARIS (AP) — Premier de Gaulle bluntly told the defiant insurgents in Algeria today to quit interfering in government, and slapped down his military commander there.

De Gaulle sent off a sharp note to his military commander in Algeria, Gen. Raoul Salan, after a Cabinet meeting devoted mainly to foreign affairs.

A Cabinet spokesman said one decision was to invite Secretary of State Dulles to Paris to confer with De Gaulle next month.

In Washington, diplomatic sources reported such an invitation had been forwarded to Dulles.

De Gaulle's most immediate problem was to restore his authority over the troublesome territory of Algeria.

De Gaulle replied sharply to a resolution by the All-Algeria Committee of Public Safety Tuesday opposing his plan for local elections in Algeria and condemning parliamentary government in France.

He criticized Salan for letting his name be used as approving the committee action, even though Salan later disavowed the resolution.

The French Cabinet heard De Gaulle's foreign minister, Maurice Couve de Murville, outline the government's position on a summit conference, one of the topics to be brought up when Dulles comes to Paris to see De Gaulle.

Informed diplomatic sources said the talks might be extended to include British Prime Minister Macmillan and German Chancellor Adenauer.

The Dulles meeting has been tentatively set for July 5. A favorable response to the invitation is expected from the United States.

The announcement came at the end of De Gaulle's first full-scale cabinet meeting on foreign affairs.

Since taking office, De Gaulle has made diplomatic feelers for talks with the Western Powers. These would be a prelude to any possible summit conference with the Soviet Union.

De Gaulle was reported determined to override defiance by the Algerian insurgent junta and hold local elections in Algeria next month.

While in Algeria he sought to re-establish government control over the area. He told the military-civilian junta which seized power there May 13 that he personally would direct Algerian affairs and the junta should confine itself to working for integration of the Algerian and European populations.

These orders and the promise of elections were defied Tuesday by the All-Algeria Committee of Public Safety. This combination of French colonists and army leaders insisted in a resolution that De Gaulle should not carry out the elections.

The resolution also called for elimination of French political parties on which De Gaulle has based his Cabinet and substitution of a government of public salvation, a right-wing dictatorship permitting no opposition.

Political circles in Paris felt the resolution presented the most serious challenge to De Gaulle since he became premier June 1 as a result of the military-civilian

Police Shoot, Nab Escaped Prisoner

Macmillan, Ike Agree More Aid Abroad Needed

Briton to Talk With Dulles and Address National Press Club

WASHINGTON (AP)—President Eisenhower and Prime Minister Macmillan of Britain apparently agree that Western nations must make more money available to underdeveloped countries.

Diplomats said that Eisenhower and Macmillan, winding up three days of talks today, would leave it to experts to figure out what should be done.

They are reported to have considered enlarging the operations and capital of the World Bank and International Monetary Fund and possibly forming a new billion-dollar lending agency.

In addition to a final session with Eisenhower, the Prime Minister meets today with Secretary of State Dulles. His schedule also calls for a speech before a National Press Club luncheon.

Macmillan and Dulles, with their group of advisers, met for 2½ hours Tuesday. The State Department announced afterward that they concentrated on economic and financial problems and that no decisions were made.

Some Middle Eastern questions, presumably relating to the growth of Arab nationalism and the activities of President Gamal Abdel Nasser of the United Arab Republic, were also discussed.

Macmillan dined informally with Eisenhower at the White House Tuesday night. Their talk dealt primarily if not entirely with atomic problems, including the possibility of suspending nuclear weapons.

The President has made no final decision on what the U. S. test suspension policy will be after the current tests in the Pacific. It is understood that both Macmillan and he felt it was wise to delay definitive policy action until two situations are clarified.

The first is action by the U. S.

Youth Shot in Head Trying to Flee From BIS

LANCASTER, Ohio (AP)—Eldon Hunt, 16, of Hilliards (Franklin County) was reported in fair condition at Lancaster-Fairfield Hospital after he was shot in the head while he and another youth were attempting to escape from Boys Industrial School near here Tuesday.

Col. T. L. Fultz, superintendent of the correctional institution, said the youth was shot by James Goslin, a BIS employee, after Goslin had ordered the boys to halt.

Fultz said he suspended Goslin for 30 days pending an investigation. Employees and instructors at the school are forbidden to carry firearms, he explained.

The superintendent said Hunt and Thomas Short, 17, of Lima, disappeared in the afternoon when they walked away from the school barber shop where they were taking barber training.

Several hours later Goslin saw the boys still on the BIS grounds and ordered them to stop. Goslin said they started running off the grounds. He said he fired five shots. Hunt fell, wounded in back of the head near the right ear. The bullet was later removed in surgery.

It had been reported that the boys were carrying straight razors which they had taken from the barber shop. Officials later found the razors in a field.

Hunt was first sent to the school in 1956. He was released in 1957 but was returned later that year on charges of breaking and entering.

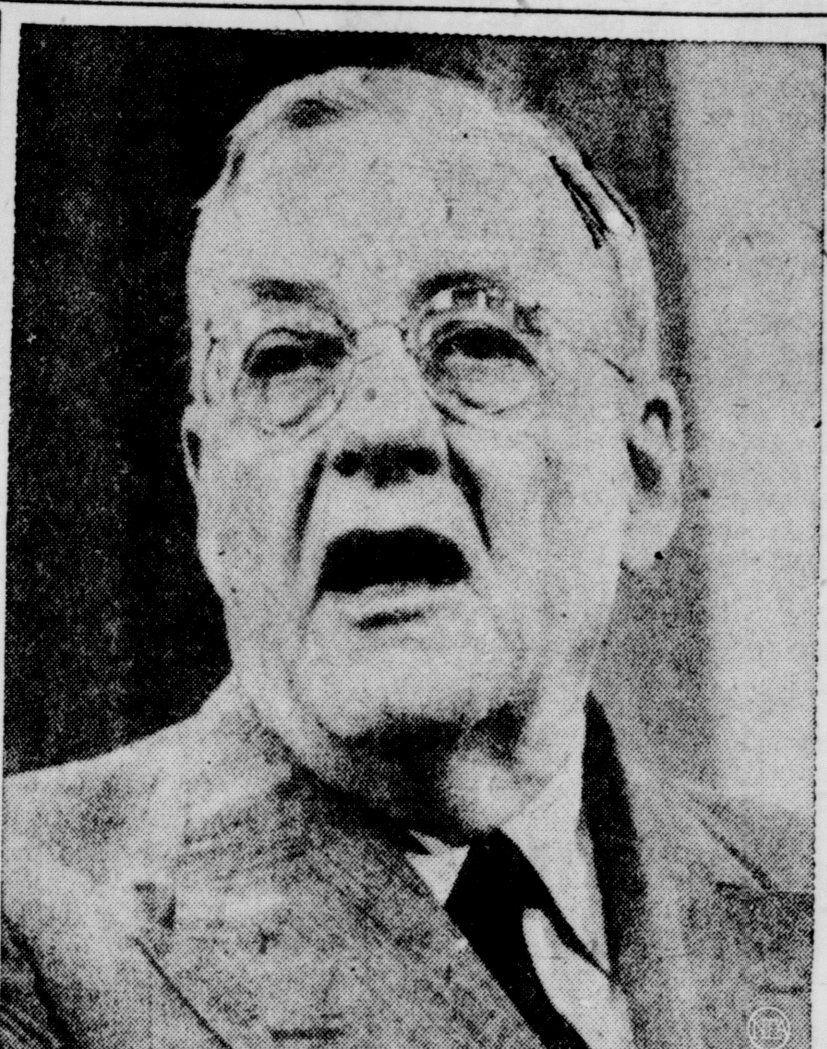

Short's BIS record started in 1955. He has been sent there several times, the last in October, 1957 for violation of parole and incorrigibility.

MIGHT RECOGNIZE RED CHINA — Secretary of State Dulles, shown at his Washington news conference, indicated that the United States might have to negotiate with Red China eventually if there is to be a workable ban on nuclear tests. He said it would be useless to agree on a test that would allow Russia to transfer its operations to neighboring territory.

President Favors More Curbs

WASHINGTON (AP)—President Eisenhower's advocacy of a more restrictive labor control bill cut a political pattern today that some Republicans found pleasing. Others didn't.

Eisenhower apparently has put the party on record as favoring more drastic action than most Democrats are willing to support to curb the kind of labor abuses exposed by the rackets investigations.

The administration is demanding changes in a compromise bill drafted by the Labor Committee under the sponsorship of Sen. John F. Kennedy (D-Mass.).

The most immediate effect of Eisenhower's course will be felt in this year's contest for party control of Congress.

The Senate now is scheduled to take up the labor bill Thursday, and perhaps complete it this week.

Regardless of whether Congress finally enacts any bill, Republican candidates will be tagged with the contention their party wants more regulation of unions than labor will accept.

Sen. William F. Knowland (R-Calif.), running for governor of California, and Sen. Barry Goldwater (R-Ariz.), seeking re-election were highly pleased with the position taken by Eisenhower.

Both had fought to include many provisions opposed by labor leaders in an earlier Senate bill to regulate health and pension plans.

GOP candidates who have indicated similar views included Sens. John W. Bricker of Ohio, Frank A. Barrett of Wyoming, John D. Hobbitt of West Virginia, John J. Williams of Delaware and Arthur V. Watkins of Utah.

More in the middle of the road were GOP Sens. Charles E. Potter of Michigan, William A. Purtell of Connecticut, Chapman Rev-

Air Force Revises Moon Shot Story

WASHINGTON (AP)—The chief of Air Force space planning says he was speaking only of planning dates in saying the Air Force will attempt to fire its first rocket toward the moon in August.

Lt. Gen. S. E. Anderson, director of Air Force research and development, told a news conference in Milwaukee Tuesday that three moon shots will be attempted this year—in August, September and October.

He was promptly challenged by the Pentagon's space boss, Roy W. Johnson, director of the Defense Department's Advanced Research Projects Agency. He said no final decision has been made on the firing dates.

On his return to Washington Tuesday night, Johnson told newsmen he had explained in Milwaukee he was speaking only of a planning date.

Accused Canton Robber Flees Fort Wayne Jail

Darl Parker, 27, Hit By 3 Shots, Trapped West of Defiance

DEFIANCE, Ohio (AP)—An accused bank robber, who shot his way out of a Fort Wayne, Ind., jail, was shot and then arrested when caught between an Ohio Highway Patrol roadblock and Hicksville police Tuesday.

Darl Dee Parker, 27, of Canton, was captured on Ohio 18 near the Indiana line, about 18 miles west of here.

Parker was one of two men being held in the robbery of a Fort Wayne bank Oct. 18. He escaped from the maximum security cell in the Allen County, Ind., jail by dawning a .45 caliber automatic pistol on a deputy sheriff, locking him in a hallway, shooting off a lock and forcing another officer to open the jail's outside door.

When Parker left the jail, police said, he forced a mail carrier, Freddy Bolton, 30, to drive him from Fort Wayne to nearby Hicksville, about 25 miles.

At Hicksville, police there spotted the car headed back toward Indiana and followed it toward the patrol roadblock. When he reached the roadblock, Parker jumped from the car and started shooting, patrolmen reported.

In the exchange of gunfire which followed, Parker was hit by three of the five shots fired by Highway Patrolman L. Verbon.

Parker was wounded in the left thigh, left ankle and creased along the abdomen, the patrol said. He was taken to Hicksville Community Hospital.

Harvey G. Foster, agent in charge of the Indianapolis FBI office, ordered Parker moved to the Federal Penitentiary at Terre Haute, Ind., for maximum security, provided his condition permits it.

Sheriff's Deputy Lloyd Oswald, who was locked in the jail hallway by Parker, said the gun apparently was smuggled into the prisoner after he had fled through the lock on his cell.

Berries Ripe! Strawberry Pickers Begin Harvest Job In Salem Area

The strawberry harvest is on in the Salem district, although recent rains have hampered picking.

The rain has helped the crops to mature but hot, sunny weather is now needed, it is pointed out.

The first big picking began today, with several truck loads of pickers leaving the state employment service office here for the many strawberry fields in the Salem area, Arthur S. Johnston, employment office manager, reported. The peak of the harvest will be reached next week.

Many children have applied for jobs as pickers. They and adult pickers will be paid six cents a basket for picking. Mr. Johnston said.

Nearly 100 acres of strawberries are growing in the Salem-Greenford district. The average yield is from 6,000 to 9,000 quarts per acre, Mr. Johnston said.

Union-Company Pacts Needed

\$15 Million in Ohio SUB Could be Paid

COLUMBUS, Ohio (AP)—Company-union agreements could make more than 15 million dollars in supplemental unemployment benefits (SUB) available immediately to jobless workers, the Ohio Information Committee reports.

A letter from Fred J. Milligan, committee executive secretary, to Gov. C. William O'Neill asserts such pacts would avoid the delays and uncertainties of legislative or court action on the SUB issue.

The Ohio Supreme Court has agreed to rule on the question of whether SUB is remuneration and must be deducted from state jobless benefits. But it hasn't said how soon such a decision would be reached.

O'Neill says a special session of the Legislature planned by June 30 could consider legalizing various concurrent SUB and state benefit payment contracts but GOP leaders indicate they would buck such proposals.

Milligan's letter noted O'Neill's observation at a recent news conference that 15 millions in back SUB payments could be made now if Ohio law permitted.

"The 15 million in the employers' trust funds can be paid out at any time and in any manner the employers and the unions agree," the letter said. "It is their money."

"They can amend their private contract or waive that provision in their contract which prohibits the employer from distributing the trust fund unless the State of Ohio agrees that it will not deduct SUB from state unemployment benefits."

"The issue on this point is simple. It is: Shall the parties to a private contract conform to the declared policy of the State of Ohio?"

"Or, shall the State of Ohio change its public policy to accommodate the parties to a private contract at the expense of everyone else?"

The letter said steel firms knew But, the letter continued, "The when they signed SUB contracts in 1956 that the state unemployment compensation law banned SUB and state jobless benefit payments at the same time."

But, the letter continued, "The law does not prevent the employers from paying out their 15 million dollars in trust funds to the needy unemployed. The law does prevent the State of Ohio from picking up part of the tab."

"That brings us to a clarification of a second point."

"You were quoted as saying, 'These payments, of course, are not from public funds. They would not cost the taxpayers a penny.'"

"But, if the state legalizes SUB there would be public funds in-

involved. For, if the state does not deduct SUB payments, then the state would be paying full state benefits which would greatly diminish the state unemployment compensation fund and raise the contribution rate on all 95,000 employers who support the fund.

"Even worse, the State of Ohio would be grossly discriminating against 2,300,000 other workers."

"In other words, a laid-off SUB employee could receive \$39 per week in state benefits plus \$25 SUB for a total of \$64 for doing nothing. Other laid-off employees, for working and earning \$25 at a part-time job, would have that amount deducted from their \$39 state benefits."

"The significant differences are that the laid-off SUB employee would receive \$39 per week from the state while other laid-off workers could receive only \$14 because of part-time work."

"Thus, if the disputed SUB contracts were legalized, payments to their jobless SUB employees would cost the state \$25 more per week than at present. And the laid-off SUB employee could receive a total of \$64 in unemployment benefits while other laid-off workers could receive only \$39."

"It is this discrimination and this raid on public funds which legalizing SUB would accomplish."

"The blighted economy of Michigan, from whence SUB came, should be sufficient incentive for Ohio to continue its present policy of refusing to legalize it."

Milligan said copies of his letter to the governor would go to about 1,000 Ohio employers who are members of the Information Committee.

SUB contracts now cover about 270,000 Ohio employees, mainly in the steel, rubber, automotive, electrical and other industries. An estimated 40,000 jobless SUB employees are potential recipients of back payments and about one million dollars a week in continuing SUB benefits.

Government Sees 4th Largest Wheat Yield

WASHINGTON (AP)—The Agriculture Department today forecast this year's wheat crop at 1,271,000,000 bushels — the fourth largest of record.

A crop of this size would be more than a third larger than last year and 14 per cent above average. The crop is being grown under rigid production controls which, because of prospective record high yields, will be largely ineffective in preventing new surpluses.

In its June crop survey, the department said good to excellent prospects predominate across the nation and raise the possibility that production this year may set a record.

The department said mounting vegetable supplies signal the end of the early spring shortage and high retail prices.

TROOPS TO KENYA — According to a London announcement, Britain will strengthen its strategic reserve in Kenya by moving 1,600 troops to the Nairobi area (see newsman) in June. The movement is part of the plans outlined in the Army Estimates Memorandum in March by Britain's War Minister Christopher Soames.

Youths Awarded Scholarships

Robert Sponseller

Frederick Ashead

Frederick Ashead of Salem and Robert Sponseller of Homeworth were awarded scholarships of \$1,250 each by the Electric Furnace Co. following the eight annual scholarship tests recently completed at the company office here.

Thirty applicants from local area high schools including Greenford, Goshen, East Liverpool, Sebring, Alliance and Salem schools were considered for the two scholarships.

Robert Sponseller, the son of Mr. and Mrs. Earl Sponseller of RD 1, Homeworth, is a member of the 1958 graduating class of the Sebring McKinley High School.

He plans to enter the College of Engineering at the University of Cincinnati this fall for a course in mechanical engineering.

Frederick Ashead, a member of

the 1958 graduating class of the Salem High School, is the son of Mr. and Mrs. Dudley F. Ashead of 1230 N. Ellsworth Ave.

Fred also plans to enter the University of Cincinnati College of Engineering this fall for a course in mechanical engineering.

As explained by K. U. Wirtz, company president, the cash awards apply toward the first year's expenses at the University of Cincinnati, which the students attend on the cooperative system. After the first year the students alternate study periods at the University with work periods at the local plant.

Roy V. Yeager of 517 E. 4th St. and Robert Bennett of 871 Homewood Ave. also received high ratings in the tests and have been selected as the first and second alternates.

Evan Hunter, Novelist

By HAL BOYLE

NEW YORK (AP) — Novelist Evan Hunter, a young man with a gift for controversy, is winning fame and fortune by playing God.

"You have to do that when you are at the typewriter," he said.

"You can have your own insecurities and doubts when you're not writing. But when you're in that room with just yourself, the machine and the paper—you have to play God. You have to feel in control, and you have to believe people want to hear what you have to say.

"If you begin to doubt this, you can't write."

Few doubts seem to have assailed Hunter. At 31, prolific beyond his years, he has produced 175 stories, some 30 novels and three plays, written under his own name and at least four pseudonyms. Total output has been more than three million words.

"I'm not really happy unless I am writing," said Hunter, who is dark-haired, blue-eyed, and stands a slender 6 feet. "I feel guilty."

Evan, a former schoolteacher, is equally adept at writing science fiction, mysteries, sport stories and children's books. But his main recognition has come from problem novels.

In 1954 he stirred up a literary storm with "The Blackboard Jungle," an 80,000-word portrayal of teen-age savagery in the schoolroom. He turned out the book in exactly two months. It has sold more than two million copies.

"I sold the movie rights for only \$35,000," he said ruefully, "and the picture earned more than \$8,000,000 dollars."

Hollywood paid \$150,000 for his latest book, "Strangers When We Meet." This novel, which blasts the lid off "the coffin of suburbia," already has gone into a second printing, and has drawn both

huzzahs and brickbats from commentators.

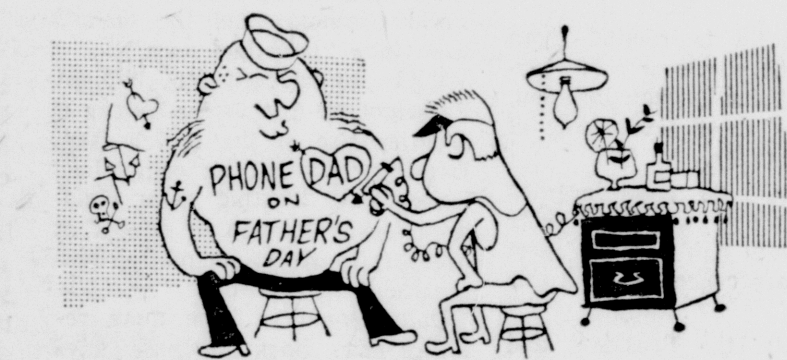

Hunter sturdily defends his attack against the conformity which he feels blights the lives of thousands of American families living in new suburban housing developments.

Hunter himself has escaped that "60-by-100-foot green coffin" he complains about. He lives with his wife and three sons in a 10-room house on a four-acre estate beyond the suburbs.

There he methodically turns out 5,000 words or so daily, and never waits for inspiration.

"I don't believe there is any such thing," he said. "Inspiration is a kind of myth promoted by pseudo-artists who live in Greenwich Village. If writing is your profession, you sit down and write whether you are inspired or not."

The popular lunchtime snack, the sandwich, was invented by the Earl of Sandwich in the 1700's. The Earl loved to play cards so much that he wouldn't stop to go to the dining room to eat. He had slices of meat put between two slices of bread to eat while he continued playing.

Knowland Will Run From Outside

If Sen. William F. Knowland had polled three votes to his opponent's two votes in the California primary this week, he would have been the favorite to win the election for governor next November.

Having polled two votes to his opponent's three in California's peculiar primary, which lets candidates for nomination run on either party's ticket, he is not the favorite. When the race for governor is run, he will be starting against the odds — and he won't even have the post position.

If he wins the political gamble that has tempted him to leave the position of minority leader in the Senate for a chance to be governor of California, it will be the hard way. There is more at stake in the race, furthermore, than Sen. Knowland's own political career.

He is presently the foremost symbol in national politics of party conservatism, not only in contrast with the prevailing mood of the Democratic party but with the mood symbolized by Republicans who think Dwight Eisenhower and his friends have been veering

too far to the left.

His election to the governorship of California on a platform that includes a California ban on the union shop and the guaranteed control of unions by rank-and-file members would signalize a momentous turnabout in his state's politics.

The immediate effect, aside from the bearing on Sen. Knowland's own "availability" for the Republican presidential nomination in 1960, would be to hearten conservatives in both parties. They would interpret a Knowland victory as proof-positive of a hunch they have been playing — that the political swing is beginning to favor them after long years of exile.

Sen. Knowland has given them no comfort by getting the short end of the vote in California's weird cross-file primary. Edmund G. Brown, state attorney general, not only polled more votes in total but managed to draw a third as many votes in the Republican primary as Knowland, who drew only a sixth as many votes in the Democratic primary as his opponent.

Walter O'Malley and the Trinkets

According to legend, Peter Minuit swapped \$24 worth of trinkets for Manhattan Island in 1626, thereby starting the real estate business in America. The legend has bearing on the deal whereby Walter O'Malley swapped a baseball trinket called the Dodgers for a valuable piece of real estate in Los Angeles.

To be sure, Mr. O'Malley had to sweat out a referendum among the natives, who questioned the judgment of their chiefs after the bargain had been struck. But as far as that is concerned, there may have been natives who lifted eyebrows over the deal with Mr. Minuit.

If they had forced a referendum, the out-

come probably would have been the same as it was in Los Angeles. The natives of Manhattan would have assigned more value to the trinkets, which they wanted, than a lot of land that was undeveloped because no one knew what to do with it.

Los Angeles wanted the Dodgers for their trinket value.

Mr. O'Malley wanted Los Angeles for its value as a producer of wealth for his enterprise. He got what he wanted, and Los Angeles got what it wanted, which is all it has taken to make a real estate deal anywhere in America, starting with the famous Minuit deal in 1626.

Ohio Law Is For Everybody

The Ohio Supreme Court will review the issue raised by the ruling of the state bureau of unemployment compensation that supplemental unemployment benefits are remuneration and therefore cannot be paid concurrently with unemployment compensation.

While the decision is awaited, it can only be hoped that Ohioans will try to understand what the issue is and why it cannot be put aside for the sake of Ohioans who would like to draw SUB payments they are entitled to under agreements with employers willing to pay them.

The issue is whether or not one group of employees who made agreements with employers to collect SUB are entitled to draw a special kind of payment that other employees cannot draw, if SUB payments are a form of remuneration, as they have been ruled to be by the bureau of unemployment compensation.

Other employees, if they are drawing unemployment compensation, must subtract from their compensation all remuneration they receive. The Ohio Supreme Court thus must determine whether or not SUB is remuneration. If it is, there can be no distinction between kinds of remuneration.

The Ohio law is for everybody and must be interpreted the same way for everybody. As long as the question of what constitutes remuneration as far as SUB is con-

cerned remains unsettled, it remains unsettled for all Ohioans who are interested in equity under the law.

Little Rock Story

The first witness in Federal District Court on a hearing to decide whether the Little Rock School Board's petition for a two-and-a-half year suspension of integration should be allowed was the vice principal of Central High School.

She had an idea for carrying out the U.S. Supreme Court's integration order.

The trouble at Central High, she declared, was caused by outsiders who worked through ringleaders in the school to maintain a state of tension in which normal educational procedure was impossible.

She suggested, therefore, that these outsiders be identified and controlled by the courts, instead of shifting responsibility to the administrators and teachers of the school.

This is also the position taken by the Little Rock School Board, which charges in its petition that the Federal Court insisted on integration and then did nothing to help control violence. Eventually, violence was reduced by the presence of federal troops, but nothing actually was done to stop the trouble-makers who used school children to keep racial tension at a high pitch.

Optimism of Secretary Dulles

By JAMES MARLOW

WASHINGTON (AP) — Secretary of State Dulles—the driver of our foreign policy bus — likes to stay on the sunny side of the street that leads to happy boulevard.

He wears optimism like a vest, buttoned tight. True, he has some gloomy moments. But they don't last long. And he seldom finds anything wrong with his own roadmanship.

It was a rather sunny account of our foreign policy that he gave the Senate Foreign Relations Committee last week. He listed a number of things we're doing to make

our problems come out right.

"I see," he said, "a prospect that provides good ground 'or hope. We are not being tossed about rudderless on a sea of change. We are guiding and influencing the character of change."

He conceded "our record is not perfect" and added: "We have no doubt done some things we should not have done and not done all that we should have done." But he didn't mention any errors by name.

And he didn't say anything about such recent setbacks as the

stoning of Vice President Nixon in Latin America, or the growing anti-Westernism in the Middle East, or the fact the Soviets are out in front with missiles.

Instead he turned to what he called the "Communist balance sheet" and found it didn't balance because the Soviet problems are simply "insoluble."

Only six of the committee's 15 members were in their seats to hear Dulles' comforting thought that things look pretty good for the West, pretty sour for the Soviet Union. And only four of the six sat through the whole explanation.

Dulles has had some unpleasant moments with this committee whose members have heard him say one thing one time and what appeared to be just the opposite the next time.

For instance: he must have been having one of his gloomy periods back in December 1955, when he said:

The Soviet zigzag policy seemed ended; they were opening dangerous new roads in the cold war; there was a rebirth; and they might be getting more confident because they were stronger.

But two months later, in February 1956, he said the Soviet leaders had to ditch Stalinism; their policy of "intolerance and violence" had failed because of free world firmness; and the Soviets were in a "very bad way."

This so angered Sen. William Fulbright (D-Ark) — or maybe it was because of the switch from December — that he complained Dulles was "treating us as children, ready to clap in delight at every fairy story, no matter how fanciful."

Dulles seems a little more relaxed now. Back in those days the word "panic" was on his mind. He repeatedly warned this country not to be "panicked" by what the Soviets were doing although to others the country seemed perfectly calm.

He hasn't used the word "panic" in a long time. What's been bothering Dulles, with his long training in diplomacy, is Soviet propaganda and the way they use it for diplomatic purposes.

But he acknowledged recently we're getting a little better at propaganda ourselves.

Red Envoy Lies About Censorship In Russia

Mikhail Menshikov, the Soviet ambassador to the United States, didn't tell the truth to the nationwide television audience on "Meet the Press" last Sunday. He said that there is no censorship of the news dispatches sent out from Moscow by correspondents for foreign newspapers.

The Soviet ambassador also repeated his innuendo that the United States government wants war whereas the American people do not. Here is the question as asked by Clifton Daniel of The New York Times, son-in-law of former President Truman:

"Why is it that the Soviet Union is the only major power left in the world today that still has a press censorship of news dispatches leaving the country? Why do you feel that is necessary?"

The Soviet ambassador made this amazing answer: "Well, I don't think there is such a censorship as you refer to. I simply do not know the details of what the procedure is regarding dispatches, their uses and so on, but so far as I know, all of the foreign correspondents that are accredited there in our country, they freely send their dispatches and different news and all that sort of thing."

MR. DANIEL, who has had firsthand experience with the censorship in Moscow, replied:

"I am sorry to tell you, sir, that having been a correspondent there, I can tell you that is not the case. I think you must have been misinformed. Every dispatch that leaves the Soviet Union from a regularly accredited correspondent is submitted to censorship. The name in Russian is called 'glavlit.' I am sure you have heard of it."

"Ambassador Menshikov: Have your dispatches abroad been sent?"

"Mr. Daniel: My dispatches were sent but my dispatches were quite often edited, shall we say, by the censor."

"Ambassador Menshikov: Therefore, I understand all news that you want to send outside of our country, they actually went outside?"

"Mr. Daniel: Not all."

"Ambassador Menshikov: Well, I don't know."

LATER ON in the television interview the ambassador was asked how, if an agreement was made to suspend nuclear tests, the American people could trust the Soviets because they had already violated the armistice agreement in Korea. But Mr. Menshikov denied this and said:

"I think we should believe each other—that is the only way."

Evidently the Soviet ambassador thinks that what he says over the television networks must be accepted as truth despite evidence to the contrary.

This correspondent last week wrote a dispatch calling attention to the Soviet envoy's statements on June 2 over a radio network on a program called "Reporters' Roundup."

Mr. Menshikov had declared, in effect, that, while the American people don't want war, he wasn't so sure about the attitude of the government of the United States.

What the ambassador said in casting doubt on the intentions and sincerity of American government officials—it was stated in these dispatches—would under past precedents result in his being declared "persona non grata" by the State Department. This means that when an ambassador is no longer acceptable as a person, he is asked to leave the country so another ambassador can be sent to replace him.

AMBASSADOR Menshikov has just been given an opportunity to repudiate or correct the bad impression left by his previous statement. Here is the question asked last Sunday by John Hightower of The Associated Press and a member of the panel of "Meet the Press"—and here also is the ambassador's avoidance of an answer.

"Mr. Hightower: There has been some question about a comment of yours some days ago as to whether you think the United States government wants to avoid war. What do you think?"

"Ambassador Menshikov: Well, I should say you better not ask me such questions. Otherwise (my friend) David Lawrence, will again declare me persona non grata."

This effort toward levity has not impressed members of congress. Rep. Michael A. Feighan (D-Ohio) after hearing the broadcast on Sunday, told the House of Representatives in a speech on Monday that Mr. Menshikov ought to be sent out of the country because, among other reasons, he is responsible for the acts of the third secretary of his embassy who was caught in an attempt to buy American military information. Mr. Feighan said:

"Menshikov is doing damage to the American scene ten times more terrible than that of an ordinary espionage agent."

"I have discussed Menshikov's activities with State Department officials occupying high policy positions and not one has denied the fact that good and sufficient reasons exist to declare Menshikov persona non grata."

Russian Ambassador Menshikov has "systematically violated" the norms of behavior for diplomatic representatives."

But the Soviet envoy evidently thinks he can ignore the truth in his television appearances and continue to try to mislead the American people.

Emanicipation

By TRUMAN TWILL

Recent events make me feel sure that if men can hang on a few years longer the scourge of home-cooking will be under control.

This is a matter I report on from time to time, believing it is more important than anything else going on in the world, including the breakaway from colonialism in Algeria.

A harder blow for emancipation would be struck if home-cooking could be routed than if Red China were to spit in Khrushchev's eye.

Home-cooking has enslaved the human race since the first cave woman squatted over a twig fire and singed the hair off a dinosaur-tail tip that her old man had sawed off with a sharp stone and brought home for dinner.

The idea that women, most of whom had no more aptitude for cooking than a pig has for free ballooning, should be consigned to kitchen work just because they married men and became "home-makers" is ticketed for extinction.

Men finally figured out how to relieve their female friends of soap-making and candle-dipping and now are making sensational progress to relieve them of food preparation.

If the shift from amateurism to professionalism also relieves men, that will be a still further gain. But one way and another, the preparation of food must be turned over to people who know what they are doing and how to take advantage of modern efficiency.

If the idea seems to be an insult to women, look at it this way: Until a few years ago, mothers routinely made up batches of special gowns suitable for feeding babies. It was rough on mothers, tough on babies. Whereupon, professionals moved in and made available to mothers — and babies — a wide line of prepared baby food. Today, any mother who spent hours of time straining vegetables and mashing up liver to feed a baby would be as out of line as a mother making her own soap or spinning her own thread.

What is good enough for babies eventually will be good enough for fathers. Except for men who stubbornly insist on home-cooking, or who married culinary cuties, men will be able to have professionally prepared meals in their own homes.

They will have a choice of all their favorites by pushing a selector button. Their wives will have no more to do than pop the things into the oven, or to take them out of the freezer to thaw, if they are cold plates.

A generation will grow to maturity without having Ole Ma with a red neck, sweat on her brow and a wild look in her eye as she struggles with the food supply in the raw. Jokes about brides' biscuits will be as unfunny as jokes about kerosene lamps.

Family life will no longer be blighted by the misfortune of building it on the home-making ability of some female who goes to pieces when she tries to boil water and cannot understand the difference between a burnt offering and a beefsteak.

Century Food Will Acquire More Stores

NEW YORK (AP)—A deal by which Century Food Markets Co. of Youngstown would acquire the Bailey Co.'s main department store and three large branches in Cleveland may be announced later this week.

Women's Wear Daily said Tuesday in a dispatch from Cleveland that financial circles reported final papers are now being drawn up.

Harold W. Scher, Bailey president, said negotiations were not completed and he would make an announcement later this week.

Bailey's is owned by National Department Stores Corp. of New York. Stockholders of National last week approved proposals to change the company's name to International Mining Corp. This followed a decision to withdraw from the retail field and concentrate in the field of natural resources extractive industries. National is controlled by South American Gold & Platinum Co.

Bailey Co. last year had a sales volume of between 13 to 15 million dollars. It employs about 1,500.

Century Food Market sales last year were about 32 million dollars at 26 supermarkets in the Youngstown area of eastern Ohio and western Pennsylvania.

Police Continue Search Of Missing Missourian

CINCINNATI (AP)—Police today continued their search for Joseph C. Berry, 55, of St. Louis,

who disappeared here May 31. An intensive block by block search of a six-block area on the west side failed to turn up any trace of the missing man.

But soon after Tuesday's search was called off for the day, police reported three identification cards belonging to Berry were found in a driveway just one block from where his missing auto was located.

Berry, paying a weekend visit to his son, Clifford, left his son's house May 31 to go to a nearby cafe. Witnesses said they saw Berry enter and later leave the cafe. Then he disappeared.

are you waiting for what I was?

Let me tell you what I saved when I drove a new Plymouth...then bought one!

Just like a lot of other people, I was putting off buying a new car...even though we sure needed one. Then I found out what my Plymouth dealer was offering in the way of low prices and really big trades.

Mister, when I saw what I saved I knew there was no use putting off any longer! Got more for my old car than I believed possible. (Plymouth dealers need used cars and can sell all they get!) Got a terrifically low price on the new Plymouth...and choice of models besides...hardtops, sedans, convertibles, wagons.

And I saved a cool \$140 on the ride alone! Plymouth's top-luxury ride, Torsion-Aire Ride, is standard at no extra cost, while you have to pay up to \$140 for the top ride of competing "low-price 3" cars.

What's more, I got the car that proved it can save me gasoline, by winning the 1958 Mobilgas Economy Run. A car with Silver Dart Styling that is so far ahead right now it will still be worth more when I trade. With the kind of easy handling that makes every minute of driving a downright thrill! The stamina to stand up without nagging adjustments and big repairs...a car as much better built as it is better looking!

Any wonder I quit waiting? Take my tip...get your Plymouth bargain right now.

Today's best buy...tomorrow's best trade... *Plymouth*

Hagemeyer Filmed Famous Events

Air Force's Chief of Photography to Retire

DAYTON, Ohio (AP)—The Air Force is going to lose the big, quiet man who put many of its major accomplishments on motion picture film.

He's Louis Hagemeyer, at 62 the civilian chief of the 1350th Motion Picture Squadron at nearby Wright-Patterson Air Force Base. If he has his way, his retirement—late this month or early next—will be considerably quieter than his 40-year career with the air service.

Ironically, that career really began when he shed the uniform in 1919 after a year's military service.

He was headed back to his job as a newsreel cameraman in Cincinnati when Gen. Billy Mitchell asked him to film the historic attempt to sink a captured German battleship with bombs dropped from airplanes.

Miss Metts was in a car driven by Louis J. Quinn, 21, of Washingtonville when it collided with an auto operated by Samuel M. Weingart, 70, of RD 4, Salem, police said.

A car driven by Alice M. Oliver, 19, of the Benton Road knocked over a stop sign at the intersection of Arch St. and Newgard Ave. at 8:20 p.m.

Cars operated by Lloyd McIlvaine, 34, of 866 N. Ellsworth Ave. and Arthur Lanck, 35, of Follansbee, W. Va., collided on N. Ellsworth Ave. near 5th St. at 7:28 p.m.

2 Fined for Illegally Accepting Benefits

Two Salem men were fined and sentenced to county jail by Mayor Harold D. Smith today on charges of defrauding the Ohio Bureau of Unemployment Compensation by accepting benefits while employed.

Penalized were John Lutsch, 36, of 937 Liberty St., fined \$100 and costs and given five days in jail; and Joseph Ochkie, 47, of 647 Olive St., \$200 and costs and 10 days in jail. Both men pleaded guilty.

Charges against the local men were filed by Earl Weaver of Columbus, a state investigator.

Lutsch was charged with accepting \$223 in benefits during February and March while he was employed and earning \$332 which he did not report.

Ochkie admitted receiving \$184 in unemployment compensation funds during a period in 1957 when he earned an unreported \$320, Mr. Weaver said.

Ochkie also illegally accepted \$231 in benefits during a period this year when he reported to the bureau that he was seeking work but actually made no applications for jobs, Weaver reported.

The investigator said the men will be required to pay back the compensation funds, they accepted illegally.

Probers Delay Influence Case

Put Off Adams Case Until Next Week

WASHINGTON (AP)—House investigators left hanging today what they hope to show by testimony that a Boston industrialist paid nearly \$2,000 of hotel bills for White House aide Sherman Adams in four years.

They produced that much information Tuesday, then put off until next week further efforts to gain access to the records of Bernard Goldfine, the businessman whose actions are under scrutiny.

Adams himself could not be reached for comment.

Still undetermined in the public record was:

1. Whether Goldfine got favored federal treatment through close personal friendship with Adams, as alleged; or

2. Whether Adams merely enjoyed Goldfine's hospitality as an old friend without offering any special treatment for Goldfine's troubled business enterprises.

That is the picture presented by Roger Robb, a Goldfine attorney.

Rep. Oren Harris (D-Ark), chairman of the subcommittee checking whether federal regulatory agencies were independent as the law intends, gave the Goldfine interests until next Tuesday to produce records on a broad range of transactions.

Robb served notice that Goldfine will fight a broad subcommittee subpoena demanding records back to 1925 and including any payments Goldfine may have made to state as well as federal officials since 1950.

Adams' frequent stays at the Sheraton Plaza Hotel in Boston were reported by a subcommittee investigator, Francis X. McLaughlin.

Hotel records listed Adams and his wife as guests in suites costing from \$37 to \$65 a day. The hotel had a ledger notation to charge Adams' bill to Goldfine, McLaughlin testified.

The subcommittee, it was said, has been told by Federal Trade Commission employees and by John Fox, publisher of the now defunct Boston Post, that Goldfine got favored treatment from the FTC and the Securities and Exchange Commission.

Testimony Continues In \$37,500 Lawsuit

LISBON — Testimony continued today in Common Pleas Court in a \$37,500 civil suit over refusal of payment of an insurance claim after the defendant was charged with disregard of assured rights under the policy.

Milton H. Solomon dba Sol Tobacco Co., East Liverpool, is seeking this amount from the Motorist Mutual Insurance Co., Columbus.

A Sol Tobacco Co. truck insured by the company was involved in an accident Aug. 14, 1952 in which a passenger in the other car was seriously injured. The injured person sued the tobacco company for \$25,000 and was awarded \$10,000 by a Common Pleas Court jury in 1954.

Motorist Mutual covered the company up to \$5,000, but refused to pay anything, claiming the truck driver was not on company business when the accident happened.

Tribe's Bell Holds Orioles to 3 Hits, Wins 10-2

Young Pitcher Nabs First Win

Indians Get 14 Hits; Wilhelm Also Shines

BALTIMORE (AP) — Young Gary Bell rang up his first major league pitching triumph Tuesday night as the Cleveland Indians jacked the Baltimore Orioles, 10-2.

The 21-year-old right-hander permitted just three hits in six innings. Hoyt Wilhelm, the knuckleball relief artist, stifled the Orioles with a single hit over the final three innings.

The Tribe, meanwhile, blasted four Baltimore hurlers for 14 hits. A five-run outburst in the eighth inning put Cleveland ahead 8-2 and the Indians added a pair in the ninth.

Minnie Minoso cracked his eighth home run of the campaign in the first inning to get the Tribe winging. He also drove home another run in the third inning with a single. Roger Maris contributed a double and two singles to the offense.

Bell was given a 3-0 lead after three frames and blanked the Orioles for five innings. He yielded Baltimore's two runs in the sixth after shortstop Billy Harrell booted a double play grounder.

Harrell scored the Indians' third run in the fifth inning after drawing a walk and stealing second base. Maris sent him across with a single.

Maris led off the Tribe's big eighth inning with a single over second base off George Zuverink, third of four Oriole pitchers. Minoso bunted in front of the plate. When Triandos threw wild to first, Maris went to third and Minoso wound up at second.

Preston Ward was purposely passed to load the bases and Dick Brown sent two runners home with a double to left. Chico Carrasquel was intentionally walked to reload the bases. Billy Moran then brought home the third run of the inning with a sacrifice fly.

Wilhelm helped the cause with a single and Harrell knocked in the final run by doubling off the left field wall. He was nipped trying for a triple.

Lou Sletater was the Baltimore victim of the final two runs. Maris doubled, and singled by Ward and Rocky Colavito accounted for the markers.

Dick Tomaneck (2-2) gets the call in the third game of the series tonight. He will be opposed by Baltimore's Milt Pappas (2-1).

Rigney's Antics Keep Giants in First Place

SAN FRANCISCO (AP) — Manager Bill Rigney continues to shuffle, juggle, promote and demote in trying to keep his San Francisco Giants atop the National League.

That they remain there — by a scant .003 — seems to amaze even the energetic skipper since his charges have dropped 10 of their last 14 engagements, including a 5-4 loss to Pittsburgh Tuesday night.

The newest Rigney wrinkle elevates relief pitchers Paul Giel and Al Worthington, a pair of right-handers, to starting roles.

Giel, former University of Minnesota All-American halfback, starts Thursday against the Pittsburgh Pirates, while Worthington, who matriculated at Alabama, gets a later assignment against Philadelphia.

Today Rigney called on veteran right-hander Ruben Gomez to face Pittsburgh's Vern Law. He also announced he'll make at least one change in the lineup, probably Bob Speake in left field instead of Hank Sauer.

Worthington pitched four hitless innings in relief Saturday and Tuesday night he worked five giving up only one hit — a solo home run by Frank Thomas. Earlier C. Stevens and Bob Skinner connected for round trippers with Bill Virdon aboard each time at the expense of starter Ramon Montzant. That accounted for the five runs.

The Giants twice pushed over the top in the eighth inning, but the Pirates were executing double plays and collected their other two on Orlando Cepeda's 14th homer of the year, a 400-foot drive to center field with Willie Mays on first base.

Mays got a single, his first hit in 14 trips, and remained No. 2 in the National League batting race. But winning pitcher Bob Friend struck him out once and in the eighth inning with the tying run on first base, Mays popped weakly to Stevens at first.

Hapless Newcombe Wants First Win

LOS ANGELES (AP) — Big Don Newcombe sprawled back on the bench in his dressing room cubby hole and exclaimed: "I sure would like to break into that win column."

The huge right-hander had just lost a 3-2 decision to the Phillies. But he had gone the full nine innings for the first time this season.

This was Don's fifth loss this year. He hasn't won a game since he beat the Phillies last Sept. 4 at Philadelphia.

"I felt better'n I have in a long time," Newk continued.

"Little ache in my arm, but that's nothing. Main thing is my back doesn't hurt."

Newk's aching back ruined him last year, and until Tuesday night it appeared possible he would join the bullpen corps.

Newcombe surrendered 11 hits but never more than two in an inning, struck out four and yielded only one base on balls.

Newcombe had a fine night at the plate and outfield. He collected three singles. And in the ninth inning he picked Phillies center-fielder Richie Ashburn off first base.

New Detroit Pilot Has No Present Plans

BOSTON (AP) — Bill Norman, promoted to a major league manager's berth in his 29th year in organized baseball, plans to run the Detroit Tigers on a "look-see basis" for a week or 10 days.

Norman said he didn't have any immediate plans after being summoned from Detroit's Charleston farm in the American Assn. Tuesday to replace Jack Tighe in the majors' first managerial shakeup this year.

"I live in hopes and surprises," Norman said. "We have good hands. There's a job to be done and let's see what happens."

Norman's debut as field boss of the last place Tigers was delayed when rain postponed Tuesday's Boston Red Sox. A day-night doubleheader was scheduled for today.

Tighe was awakened from a sound sleep and told he was fired by General Manager John McHale. Norman arrived by plane about three hours later as Tighe headed for his home in Spring Lake, Mich.

McHale said that Tighe "gave it everything he had, but it just didn't work out."

White Sox Miss Minoso's RBI Ability, Leave 399 Stranded

By The Associated Press

You can tick off a number of reasons to explain why the Chicago White Sox, who finished second last season, are barely free of the American League cellar at the moment. But the No. 1 answer is the guy playing left field for Cleveland.

Without Minnie Minoso, who led Chicago with 103 runs batted in last season, the White Sox have left 39 runners stranded (an average of eight a game) while scoring only 187. Sherm Lollar is the top RBI man with 28.

A year ago, when they led the league by four games, the White Sox had scored 209, with 343 left on base and Minoso batting in 36.

Minoso hasn't been a ball of fire at Cleveland but he's leading the club with 29 RBIs.

He added a pair Tuesday night, one with his eighth homer, as Cleveland beat Baltimore 10-2 and moved into fourth place. The White Sox left 10 on base in a two-night double header split at Washington, winning 5-4 before a 5-2 defeat.

Other scheduled games were rained out.

In the National League, Pittsburgh defeated San Francisco 5-4, but the Giants retained a .003 percentage point lead over Milwaukee, beaten 9-6 by the Chicago

Cubs. Philadelphia kept Los Angeles in the cellar, beating the Dodgers 3-2.

A pair of four-run rallies decided things at Washington. The Senators, who got a quick lead on Roy Sievers' 11th homer, cracked a 1-1 tie with four in the nightcap sixth against Jim Wilson (5-5).

Julio Becquer's pinch single drove in one, winner Hal Griggs (3-2) brought in another on a sacrifice fly, and Herbie Plews counted two with a double. Jim Landis and Earl Battey homered for the Sox' runs.

The Sox bagged the opener with four in the seventh on Billy Goodman's two-out, bad-hop single, Nellie Fox's RBI single and Smith's two-run fly ball double.

ay Moore (3-1) gave up only three hits in his six innings, but southpaw ace Billy Pierce had to hustle in as the third White Sox reliever to end a threat in the ninth. Truman Clevenger lost it in relief of Camilo Pascual.

Orioles' Richards, Cubs' Holland Top Traders This Year

NEW YORK (AP) — Manager Paul Richards of Baltimore and General Manager John Holland of the Chicago Cubs have been the top traders this season.

Sports Autos Are Scheduled At Canfield

Small, speedy, foreign sports cars will show off for racing fans at Canfield Speedway Saturday night. Some 25 of the foreign makes will take part in a 20-lap duel on the quarter-mile oval.

The modified "bombs" will also be on hand to share the billing with the district "left-turners." In all there will be nine races, eight for the "bombs" and one for the sports cars.

Among the popular and veteran sports car drivers will be John Patrone of Youngstown in an Austin-Healey, David Burch of Struthers in a MG-TD, the brother duo, Fred and John Leeson of Poland auto repair, in special models they have built themselves, Dr. James Logan of Warren in a Triumph, Roger Clancy of Boardman in a Triumph, John Kambury of Youngstown in an Alfa Romeo Peter Elsaesser of Boardman in a Renault and Howard Couter of Canfield in a Saab.

Heading a huge entry list of modified cars is a two-time winner Dean Mast of Sugar Creek.

Each week the list of modified cars increases at Canfield and some 35 to 40 are expected to be in the pits Saturday night. Time trials get under way at 7 and the first race at 8:30 p.m.

Three Softball Games Washed Out by Rain

Rain washed out three scheduled Salem Softball Association games at Kelley Park Tuesday night.

Tonight's schedule is as follows: 6:30, Friends vs Rays; 7:45, B&W vs Tolson; 9, Old Dutch vs Hanoverton.

There were 18 major trades during the past eight months and Richards and Holland were involved in seven.

Richards' first transaction resulted in Baltimore acquiring pitcher Jack Harshman, first baseman Jim Marshall, outfielder Larry Doby and pitcher Russ Hemans from the Chicago White Sox for Ray Moore, Billy Goodman and Tito Francona. Doby was later swapped to Cleveland for Gene Woodling.

In another deal, Richards obtained Arnold Portocarrero from Kansas City for Bud Daley.

Harshman has won five games, losing the same number. Marshall, playing regularly, is hitting .28 but supplying the long ball for the Orioles. Hemans was optioned to the minors. Woodling is hitting .270 to Doby's .238 and playing regularly while Doby is riding the bench. Portocarrero has a 4-3 record, including two shutout victories, while Daley, unable to win for Kansas City, has been sent to the minors.

Moore has been able to win only two games for the White Sox. Goodman is hitting .265 and Francona .272. Neither of the last two have been playing regularly.

The critics laughed when Holland sent Rush, Don Kaiser and Eddie Haas to the Milwaukee Braves for Taylor Phillips and Sammy Taylor. The latest figures show Phillips with a 4-0 record and Taylor batting .295. Rush has a 4-2 record but both Kaiser and Haas are in the minors.

The Cubs also traded Bob Speake to the San Francisco Giants for Bobby Thomson. Thomson, one of Chicago's leading run producers (.29), is hitting .284 to Speake's .194 in only 21 games.

Chicago's Alvin Dark deal for pitcher Jim Brosnan appears about even, with Dark hitting .282 for the Cubs and Brosnan gaining three decisions without a loss at St. Louis. The Cubs also got a standstill in the trade that sent Turk Lown to Cincinnati for Hershel Freeman. Neither has won.

Someone said "truth is stranger than fiction." The top story this week seems to bear out that statement.

Earl Ressler, Mahoning County game protector, was called out on Thursday to pick up a deer killed on the turnpike. When he arrived, what he saw was not only a badly mangled doe but a little fawn that was born by the impact.

Unbelievably so, the fawn was still alive. Ressler placed it in the front part of his car and loaded the carcass of the doe in the rear. The little fawn was cleaned up

while Ressler's wife set about getting the baby bottle prepared for the fawn's first feeding.

THE LITTLE ANIMAL responded to treatment. It was not seriously injured although it had marks on the face and one front leg.

Now it is six days old. He is a little wobbly on his legs but follows Earl around the house. He is also getting first class attention like a new baby.

TRAGEDY struck again at the Earl Mollenkop farm. While mowing his hay at his farm near East Palestine, the cutting bar severed all four legs of a fawn that appeared to be about 2 days old and that wasn't any bigger than a rabbit.

Not only did Earl regret the incident but he wanted to know what to do. The only thing in this case was to dispose of it.

The rabbit crop this year seems to be very good from what the farmers tell me and from roadside observations.

IT'S A LITTLE early to make

any predictions about the pheasants. The old hens keep their peeps pretty well hidden until they reach the flying age.

Fish harvesting, to get rid of the undesirables, still goes on at Lake Guilford as tons of them are removed by nets and through killing fish-tox.

The bow and arrow boys had their fun when lunker carp began surfacing from the effects of this eradication. Some people picked up the big carp and put them through the smoking process. Ever eat smoked carp? It is very good and when you buy it up in the Lake Erie district, you pay a premium price for it. It's just as good as smoked salmon.

FISHING over the past week was not too good although a few bass were taken along with small crappies and perch.

One fisherman at Guilford found a hot spot. He was taking bullhead catfish one after the other and throwing them back into the lake.

Even if he didn't care for them, I suggested he put them on a stringer and give them away. Some people prefer bullheads over the rest of the fish.

Fishing should improve as the bass have finished spawning and will be getting hungry soon.

GEORGE WILSON of Hanover-

ton has pheasant eggs to give away. See him at the feed mill in Hanoverton if you want to try to hatch a few young birds.

Reds, Cards Rained Out, Battle Again Tonight

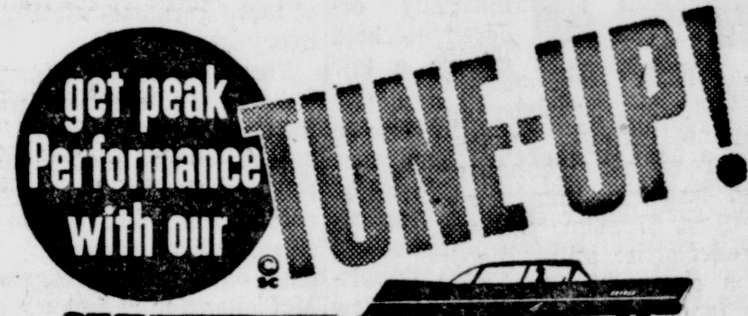

ST. LOUIS AP)—The Cincinnati Reds and the St. Louis Cardinals will wring the water out of their uniforms and try again tonight.

A torrential rain and the threat of a tornado—which didn't mater-

ialize — forced postponement of Tuesday night's opening game in a three-game series, with the Cardinals leading 2-0.

St. Louis was batting in the bottom half of the third with two out and a man on third when mo'her nature came to the aid of Birdie Tebbetts and company.

Despite the postponement, the third place Reds gained a half game in the standings to move within three games of the league-leading Giants when the Giants dropped a 5-4 decision to Pittsburgh.

Inside Labor By Victor Riesel

Victor Riesel

Hand-picked detectives of the crack New York City Police Department who had been furloughed overnight to Sen. John McClellan's racket-busting counsel, Bob Kennedy, were fanning through the big town with fists full of subpoenas last week when they were dramatically ordered to hold up for a few hours.

They had been about to close in on a band of racketeers, an inner corps, which had also been under the surveillance of Harry Anslinger's Federal Bureau of Narcotics, the FBI and the Justice Department's Southern District of New York, militantly directed by U.S. Attorney Paul Williams.

The big city sleuths were stopped just short of the mob's high command, which has an electronic grapevine all its own. For the moment Bob Kennedy's subpoenas hit the first of the mob's finance and brain trust, the rest would have melted into the summer night in big cars, bigger yachts and even larger private aircraft.

True, Counselor Kennedy's field men were pinning their papers on racketeers who have been terrorizing legitimate business and labor leaders in the garment and trucking districts of three eastern states. But these same "executive board members" of Terror, Inc., it now appeared, were not dedicated to any single type of loose loot.

THE FEDERALS were about to pick them up on charges of financing narcotics smuggling. This is a highly profitable business where \$10,000, properly placed in France, Syria or Italy, brings in enough heroin and cocaine to sell for a million dollars here.

Bob Kennedy's men held off so that the federal could make their arrests. Under the direction of Paul Williams and U.S. Attorney General William Rogers, they picked up some of the ringleaders at their swank beach homes at 6:45 a.m. on Wednesday, June 4. Then the McClellan committee's subpoenas were served later.

This coordination proved with the finality of an Einstein equation that the labor and industry rackets are tied in, through the same criminal cadres, with all other brutal mob operations.

Among those arrested was that

mighty familiar figure in New York's garment area, multi-millionaire realtor and garment manufacturer, Ben Levine. The charge against him was financing the dope rings.

Levine, who smooth talked the terror for the old Lepke mob, is a power in the garment industry today. Picked up with him was Natale Evola, delegate to the Mafia Grand Council. Evola is listed in the files of the New York State Crime Commission as the president of three garment trucking and delivery companies.

These same files state that "he is believed to exercise control over the shoulder pad industry." The report states that manufacturers are required to "join" a shoulder pad association which Evola dominates. Others sought by the federal on narcotics charges and by McClellan for racketeering are intertwined in other trucking corporations.

THE FEDERALS believe that the money made from narcotics is invested in the legitimate businesses. The mobsters then drive competitors into bankruptcy by the terror wrought by the mere mention of their names — and by the muscle applied when the competition, or union officials, don't scare swiftly enough.

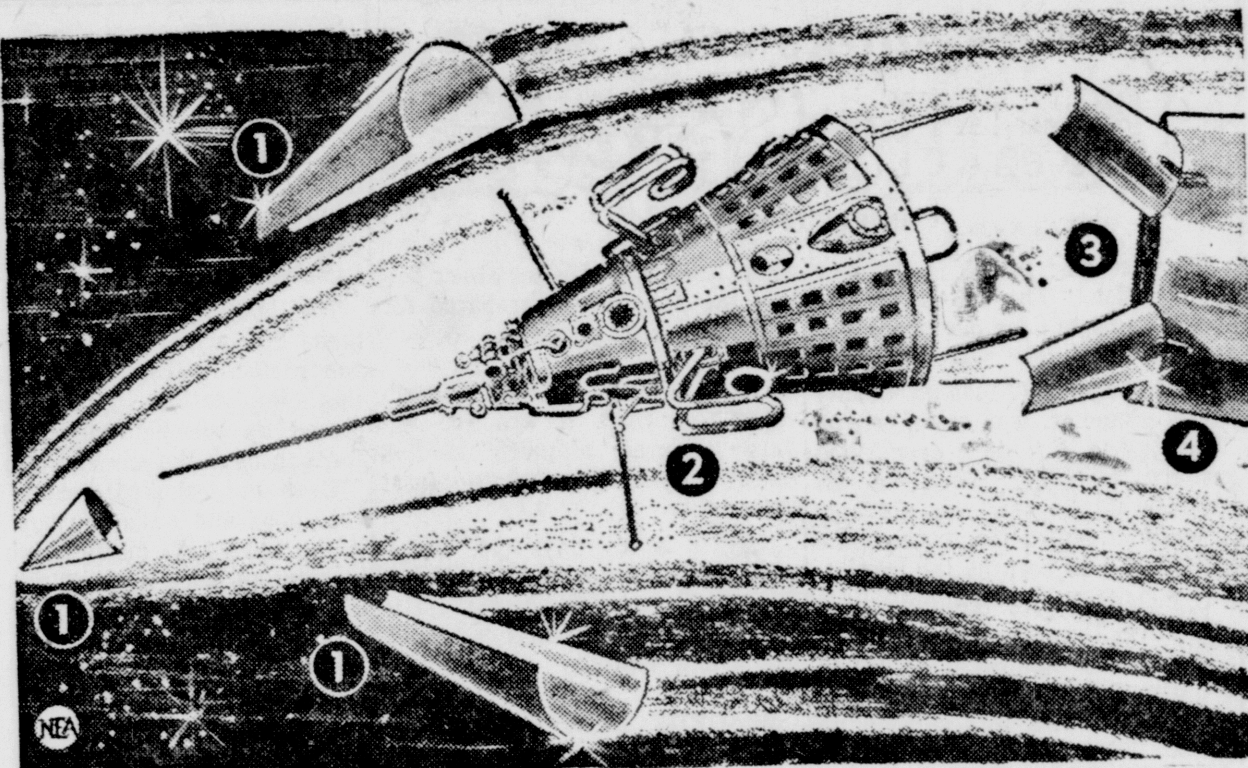

Substitute other criminality for dope smuggling and you have the same pattern right across the land. The federal has found, for example, that there are at least 75 past and present officials with criminal records in the Hotel and Restaurant Workers Union. There are hundreds more in other unions.

At the latest count, Bob Kennedy had a couple of hundred men under subpoena in eight or 10 states. After he completes his hearings into the Butchers' and Carpenters' he will swing into what is believed to be the most startling probe of all — revealing a criminal network stemming out of Chicago in the hotel and restaurant field and the juke box industry, in which one Electrical Workers Union has been the enforcement arm of the rackets.

In addition to New York, Kennedy now is ready to open up on these interlocking outfits in New Jersey, Pennsylvania, Illinois, five other Midwest states, Florida and Las Vegas.

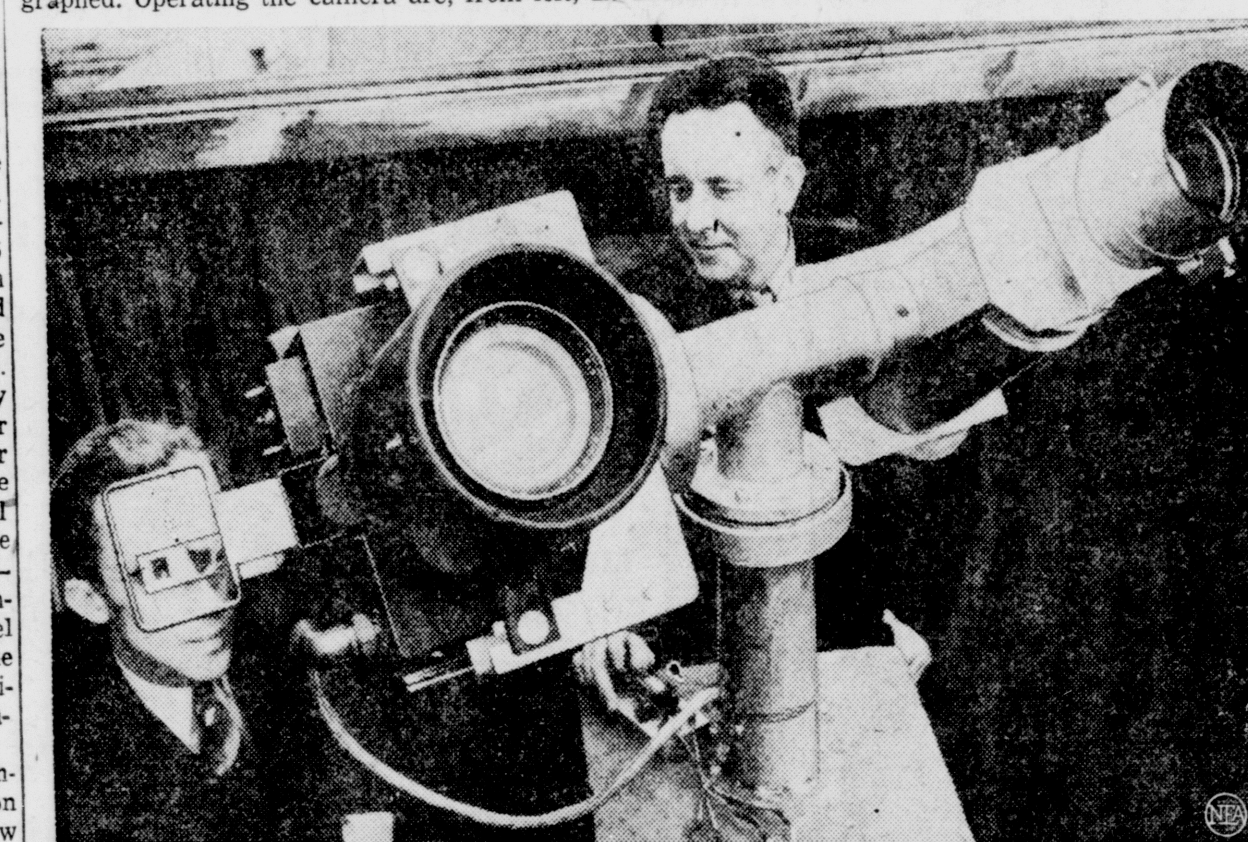

I think I'll coin a line — apparently truth is stranger than fiction. The Hall Syndicate

Sputnik, Sputnikettes and Sputnik Spotter---

Russia's huge Sputnik III had four small companions placed in orbit with it last month, according to the Soviet newspaper Pravda. Drawing above, based on a diagram published in the official paper, shows: (1) protective nose cone and shields, separated; (2) Sputnik III; (3) separated shields, attached to (4) carrier rocket. Four objects were sighted over this country after the satellite was launched. The rocket and Sputnik III are still being observed and are now traveling about an hour apart. But the nose cone and shields, being light and more susceptible to atmospheric friction, may already have fallen. Designed to photograph Sputnik III, the camera, below, has been put to work by scientists at Latvian State University, Riga, Latvia. Sputnik III is first tracked by radio signals, and then photographed. Operating the camera are, from left, E. Tadenaks and assistant professor K. Shteins.

No Better Investment Than Jewelry, Noted Designer Says

By DOROTHY ROE
Associated Press Women's Editor

Every woman with a yen for diamonds should note well the feminine logic of beautiful, red-haired and jewel-bedecked Marianne Ostler, who explains how to convince a husband that precious jewels are a man's best buy.

The way this noted Viennese-American jewelry designer explains it in her new book, "Jewels and the Woman," a diamond bracelet or an emerald necklace really costs nothing, because—

"The precious stones that Cleopatra wore for the admiration of three monarchs still hold their

pristine fire, and no doubt sparkle on the throat of some fair lady of today. If the cost of a jewel is measured against the duration of its usefulness . . . it is clear there is no better investment."

A jewel is as valuable as gilt-edged stocks and bonds, Mrs. Ostler points out—and not half so vulnerable to market fluctuations. And often the older it gets the more valuable it becomes.

Born and reared in Vienna, Mrs. Ostler married court jeweler Oliver Ostler, and started designing jewelry for such well-heeled personages as Queen Marie of Romania, the Maharani of Cooch-Bihar, Queen Geraldine of Albania, the Maharani of Ba-

rodia and the six sisters of King Zog of Albania.

The Ostlers transferred operations from Vienna to New York in 1940, where they started turning out precious baubles for Americans in the upper income brackets.

Marianne has some definite ideas on current jewelry fashions, to wear with the new chemise and trapeze dresses.

"I'm definitely not in favor of all those ropes of colored beads women are wearing these days," says she. "Lots of beads only make a woman look older."

"Jewelry should not be worn merely as a display of wealth. If that's all you want to do, you might as well wear a check pinned to your dress."

"In my opinion, the ear clip is the most important focal point of today's jewelry—the bigger the better."

A cartoon by Liz Feltz. It depicts a secretary with a large, multi-tiered coat rack attached to her back. She is holding a telephone receiver to her ear. A man in a suit is standing next to her, looking at her. A woman with dark hair is in the foreground, looking towards the secretary. The date '6-17' is written in the bottom left corner of the cartoon.
